The country is not so badly informed in reference "to the tariff sentiment in the senate" as Senators Vest seems to imagine, and as he will some day find to his sorrow. Indeed it is no wonderment that the senate did not pass a tariff reform bill, when so-called tariff reformers, like the senator, are so willing to have the special interests of their particular state protected. People cannot be expected to have faith in the tariff reform professions of men who are unwilling to begin the great work of reform at home. By their votes we shall know whether they be real reformers.

**TO PARENTS.**

Sometimes parents in casting about for a school for their son or daughter say: "Well, it doesn't make much difference where we send. There are so many schools and they are so equally good."

A great mistake. There are many schools, but they are not all equally good; and it makes a great difference as to what school you send.

There is nothing on earth dearer to you than your children, and nothing in life will affect their future destiny more than the school—the discipline and training of the school to which you send them.

The school that is building for all time, that regards the future success and usefulness of your son and daughter more than present whim or gratification; that esteems the formation of character of greater moment than having a "good time"—the school that does this is the school for your children.

The element of the time is important. It takes time to build anything great and permanent. A school must be tried; its worth must be tested; its policy and methods must be approved.

North Missouri Institute has been tried, its work tested, and its policy and methods bear the stamp of public approval.

The work of higher education began in 1888 in Salisbury, has been continued under the same management in North Missouri Institute for the past three years. So we open

**OUR SEVENTH SESSION**

Sept. 24, 1894, more firmly established, more convinced of the need of such a school in this section, more impressed with the importance of its high mission.

We solicit your patronage, and guarantee satisfaction. Send for catalogue or other information.

Yours Truly, G. C. BRIGGS, President.

The business of the country is beginning to move along; all right once more, in spite of Debs' declaration that the strike is not over. That gentleman has changed his tactics from public to secret orders. The plan seems now to be petty and local strikes at places unprotected and the most unlooked for. The promised strike at the Chicago stockyards did not materialize. If Mr. Debs wants to put his cause entirely outside the pale of public sympathy, all he will have to do will be to bring about the same condition of affairs that existed a few weeks ago. He may yet pass the treason mark if he proceeds much further. He, however, is now in jail having been arrested, and bond refused for his release.

The revenue necessities of the different counties and townships of the state are not the same. Some being free from debt, and others largely in debt; some having much bridge building to do and others but little. Hence the incentive of the various assessors of the state to approach the "true value" of property in making their assessments is not the same. But that is not sufficient reason why the county with small local demand for revenue should pay 20 per cent. less than its just proportion of state taxes.

**TRUSTEES SALE.**

Whereas William H. Wilson and Julia P. Wilson, his wife, by their certain deed of trust, dated the 10th day of April, A. D. 1894, and recorded in deed of trust book 9, on page 218, in the recorder's office of Charlton county, Missouri, conveyed to Thos. J. Martin, as trustee, all their right, title and interest in and to the following described real estate, situate, lying and being in the county of Charlton, state of Missouri, to-wit: The northeast quarter of section No. thirty (30), in township No. fifty-six (56), in range No. seventeen (17), and the southeast quarter of the northeast quarter of section No. twenty-three (23), and the west half of the southeast quarter of section No. twenty-five (25), and the southwest quarter of the northwest quarter of section No. twenty-five (25), and the southwest quarter of the northeast quarter of section No. twenty-three (23), all in township No. fifty-six (56), in range No. eighteen (18). Which said conveyance was made in trust to secure the payment of a certain promissory note in said deed of trust described, and whereas said note has become due and remains unpaid, now, therefore, at the request of the legal holder of said note, and in pursuance of the terms of said deed of trust, I will, on

Monday, the 30th day of July, A. D. 1894,

between the hours of nine o'clock in the forenoon and five o'clock in the afternoon of that day, at the east front door of the courthouse, in the town of Keytesville, Charlton county, Missouri, expose to sale the above-described property at public vendue to the highest bidder for cash, for the purpose of satisfying said note and paying the costs and expenses of executing this trust.

Thos. J. MARTIN, Trustee.
